The old mechanic still works in modern Oses but it's entirely optional And since some modern menus are crazy huge, it's a lot easier to be able to move the mouse without having to hold the button down the whole time.. Post to instead • Articles or videos • Static images, gifs, animations that serve the same purpose of gifs or collections of either.. It's really a silly thing to care about, but it bothered me at first, too There was an extension to add sticky menus before it was standard, and an extension to remove it after.. Back then you could customize EVERYTHING with system extensions Except for the crashing.. It was, believe it or not, a controversial change I guess a large part of the backlash was from people who felt Apple was just changing it to be more like Windows (almost never a good idea).

There are only a few working emulators for Mac OS X right now, and one of them is Andy OS Emulator.. Moderator Discretion • Beauty is in the eye of the beholder, but we have beheld a lot! This subreddit is highly curated and the moderators frequently must use their discretion and judgement as a team when enforcing our rules.. Looking for Best NES Emulators for Mac OS X Many f you guys know about Nintendo gaming systems that are the next level gaming system after 90's games like Super Mario Bro's, Konami Contra, and Track.. After Nintendo Entertainment System games sony takes over almost all the games and

became very popular in the gaming world so no these days in many countries people are used to playing XBOX or PS4 games..)

- Something not unique (includes generators, blogs, tumblrs, etc)
- Web games.. Sites that pose a potential security risk
- Websites that require a login or email address.. I don't miss that part. Mac Os X Lion with CSS3 Experiment - I wanted to create with only use of CSS3 the boot, the login page and finally the desktop of the Mac OS X Lion.. If this subreddit for whatever reason fails to provide the interactivity you need, we also highly recommend a look at for a less diluted dosage of interactivity..

Comments • We enforce a standard of common decency and civility here Personal attacks, bigotry, fighting words and otherwise shitty behavior will be removed and may result in a ban.
